

Thank You for Your Support!

How much can you deduct for the gently used goods you donate to Goodwill? The IRS allows you to deduct fair market value of used items - **in good condition**. The quality of the item when new, and its age must be considered, but it must be **in good condition** to allow a deduction. **For more information, go to www.irs.gov.**

Below is a list of what items generally sell for at Goodwill Retail Stores. To determine the value of an item not on this list, it is suggested that using 30 percent of the item's original price reflects its fair market value. We can provide a receipt on which you can document the value of your donation.
